PROJECTS

- StoreIt – Cloud Storage Website:** [Live Demo](#) | [GitHub](#)
 - Engineered a full-stack cloud storage platform with blazing-fast **React + Redux** frontend and slick, responsive UI.
 - Built a rock-solid backend using **Node.js, Express**, and **MongoDB** with JWT-secured authentication.
 - Integrated **Supabase Storage** for lightning-fast file upload, download, and management at scale.
 - Delivered a seamless dashboard experience with full **CRUD** for files and real-time updates.
- ADB – A React Movie Website :** [Live Demo](#) | [GitHub](#)
 - Built a fully responsive movie platform using **React.js, Redux Toolkit**, and **Tailwind CSS**.
 - Integrated the **TMDB API** for real-time search, trending listings, and movie detail pages.
 - Implemented **dynamic routing, loading states**, and **error handling** for seamless UX.
- Review Shield – Fake Review Detection Website :** [GitHub](#)
 - Built a **full-stack web app** to detect fake reviews on Flipkart using real-time **web scraping** and **NLP**.
 - Designed the frontend using **React.js, Axios**, and Recharts for interactive **data visualization** via pie charts.
 - Integrated a fine-tuned **Distil BERT** model using **Hugging Face** Transformers for real vs fake review classification.
 - Enabled AI-powered review authenticity insights through binary classification and visual summaries.
- Premier – A Model Showcase Website :** [Live Demo](#) | [GitHub](#)
 - Created a visually stunning showcase platform inspired by Behance.
 - Implemented a **fully responsive**, minimalist, and modern UI using **HTML and CSS**.
 - Emphasized clean design principles, visual hierarchy.
